

SEN. MORGAN ON
NEGRO SUFFRAGEIgnorant, Unpatriotic Element to
Be Deprived of Power.

TO STRENGTHEN LIBERTY.

No Violence Will be Done the Four-
teenth and Fifteenth Amend-
ments, He Declares.

New York, May 18.—Senator Morgan of Alabama is as outspoken in his opposition to negro suffrage as he was in his opposition to the Washington special to the new session, as he was when he began his career in the Senate. In an interview lately in speaking of the coming constitutional convention and what it will do, he said:

"There is not the shadow of a doubt that without doing violence to the fourteenth and fifteenth amendments to the federal constitution the ignorant, irresponsible, incapable and unpatriotic element will be deprived of the power to participate, to its detriment, in the administration of affairs of the state. And by this action true liberty and republican institutions will be strengthened and restored to the full character of a free government."

Big Frauds in Russian Railways.

Berlin, May 18.—Frauds and pecuniary losses amounting to 31,000,000 roubles have been discovered upon the Russo-Polish and Russo-Bulgarian railways. They were carried out by wholesale declarations of deficient freight weights. In Warsaw alone forty arrests have been made.

Morgan Will Soon Sail for Home.

Paris, May 18.—J. P. Morgan is expected to stay in Paris for several days. He will then sail for home without returning to Aix-les-Bains.

To Grant Commercial Degrees.

London, May 18.—The council of the University of Birmingham have decided to establish a faculty of commerce and to confer degrees for proficiency in commercial subjects.

Ninety Boers Surrender.

Pretoria, Northern Transvaal, Wednesday, May 18.—Ninety Boers, including Baron von Steiner, and many former members of the Volksraad, have surrendered. The Boers are rapidly settling down to the usual conditions.

Agree to Powers' Demands.

Paris, May 17.—An official dispatch received here announces that the Chinese plenipotentiaries have agreed to the demands of the powers for concessions to be used for legation sites.

French Cruisers at Tangier.

Tangier, May 17.—The French cruisers Du Chayla and Du Chayla have arrived at Tangier. They are on duty to enforce the payment of indemnities for the murder of a Frenchman at Keddana. They will proceed to Haza-gas and remain there until a settlement has been reached.

Hon. E. F. Uhl Dead.

Grand Rapids, Mich., May 17.—Hon. Edward F. Uhl, former assistant secretary of state and ambassador to Germany, under the Cleveland administration, died shortly after noon today. He had been ill nearly a year suffering from a complication of diseases, among them Bright's disease.

MRS. LYMAN GAGE DEAD.

Wife of the Secretary of the Treasury Succumbs to Heart Trouble.

Washington, May 17.—Mrs. Lyman J. Gage, wife of the secretary of the treasury, died at her residence, 1715 Massachusetts avenue, Northwest, at 3:30 o'clock tonight after an illness of the last week's duration. With her when she died was her husband, her mother, Mrs. E. P. Pierce of Framingham, Ill., and Dr. W. W. Johnston, the attending physician. For a time before her death Mrs. Gage suffered from heart trouble, but she recovered sufficiently to return to her position, where she had been confined to her room ever since.

Mrs. Gage was a native of Albany, N. Y., and 54 years of age. She was married to Secy. Gage in Denver in 1887. There were no children from their union. Mrs. Pierce being a child by a former husband.

The remains will be interred in Rose Hill cemetery, near Chicago. Further than this the funeral services have not yet been arranged. It is probable, however, that religious services of a simple character will be held at the former residence in this city on Sunday morning, in which event the body will leave here by the morning train for Chicago.

Mrs. Gage was an Episcopalian in her religious belief, but during their marriage she and the secretary had been members of the Metropolitan Methodist Episcopal church, where the President died. Dr. Hille of Plymouth church, Brooklyn, is an intimate friend of the family, and it is possible that he may be asked to come to Washington to conduct the funeral services here.

During their residence in Washington, Secy. and Mrs. Gage have taken quite an active part in social life at the capital. Mrs. Gage was a woman of charming personality, and with her husband delighted in extending the hospitality of their elegant home on Massachusetts avenue. Mrs. Gage was probably closer to Mrs. McKinley than any other of the ladies of the cabinet.

PRESIDENT ADVISED OF HER DEATH.

San Francisco, May 17.—The news of the death of Mrs. Gage was received by the members of the President's official family in this city with expressions of regret. The Associated Press bulletin which was transmitted to Secy. Cortelyou at the Scott residence, conveyed the news to President McKinley. Extra precautions were taken to keep Mrs. Gage's death from Mrs. McKinley.

Women's Baptist Home Mission.

New York, May 18.—At the meeting of the Women's National Baptist Home Mission society held in this city, delegates were present from various localities. Mrs. William M. Isaacs, president of the New York city branch, presided at the morning session, and Mrs.

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and subversive action on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants. Fig Syrup is known to the people of California as a reliable remedy. In order to get the beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N. Y.
Bottle and all Druggists. Price 50c. per bottle.

William R. Taylor, vice president of the state society and president of the Brooklyn branch, presided at the afternoon session. Mrs. J. N. Crouse, of Chicago, president of the national organization, in an address stated that there are at present one hundred and fifty-nine missionaries in 24 states and territories supported by the society; these are employed among Europeans, Asiatics, Indians, Jews and negroes.

The latest addition is Cuba, where are three teachers, one of whom is supported by the Young Women of the Baptist church.

"The Baby Band," with its 437 enrolled members, pays the expenses of a kindergarten among the Chinese of San Francisco and one in Mexico. There are 2,807 auxiliaries. During the 24 years of existence of the national society \$1,024,102 has been raised, \$69,876 of the amount being last year's income.

A conference of home missions was a feature. An address on the Baptist training school in Chicago, was made by Mrs. C. D. Morris. Mrs. E. H. Ehlers, of Shaw university, who has spent many years among the colored people of the South, spoke on "Negro Homes."

The society supports a training school for workers in Chicago, in Dallas, Texas, and a training department in Shaw university.

NATIONAL MACHINISTS.

Executive Board Makes Preparations for an Emergency.

Washington, May 18.—The executive board of the National Association of Machinists assembled here this afternoon to be prepared for any emergency in connection with the general strike, and also to prepare the report to the biennial convention at Toronto on June 3rd. The board consists of representatives from Boston, New York, Chicago, Toronto and Sioux City. They will act in both advisory and judicial capacities during the threatened strike and will be in readiness to send out to different cities where executive officers may be needed to manage the local situation. President O'Connell said there was no possibility of averting the general strike.

From the statements of the executive board it develops that the most trouble is expected at Cincinnati, San Francisco and the Northern Pacific coast cities. J. J. Donnelly, the Boston representative on the board, says there will be very little trouble in New England. Hugh Doran, of Chicago, says there will not be over 500 men on strike.

WORK DON'T HURT.

Poor Selection of Food is the Cause of Break-Downs.

Many men, and women too, feel that their work is the cause of symptoms of nervous break-down, but work is not the cause, as any one can prove to their entire satisfaction, by leaving off the food they have been trying to subsist on, and taking in its place food made for the express purpose of rebuilding the brain and nerve centers in the body and supplying other portions with sufficient nourishment and keep right on with the same work and get well and strong.

An illustration is given in the case of F. A. Whiteley, Supt. of the Public Schools at Excelsior, Minn. He is also a student and teacher of hygiene. He says: "This spring at the beginning of the last month of school, I was very much run down, and since my duties are quite confining, I naturally ascribed my condition to that of overwork."

"I discovered that I made the same mistake that many do. It is not work but a lack of proper food that causes break-down. Wife went visiting at this time and I concluded to get my own meals for a time. The grocer suggested that I use ready cooked food known as Grape-Nuts. I found the food delicious, requiring no cooking. I simply poured milk or cream over it and had it in that way."

"I used Grape-Nuts for breakfast, dinner and supper, and liking it so well I simply lived on it for the next three weeks. My work continued quite as arduous and confining as before but I experienced a decided rise in spirits and vitality as well as in general health. Found I did not tire as before and entirely lost that worried feeling which seems to take the heart out of one."

"I am satisfied that the change was due to my change in food, and I have been so greatly helped and have been taught so valuable a lesson in food as related to the human body that I wish to express my appreciation in this manner."

It will pay any brain worker to dispense with a part of the ordinary diet and use Grape-Nuts once or twice a day at least, for the food is made by food experts, for the purpose of supplying the human system with the elements in a concentrated form, required for rebuilding the brain and nerve centers throughout the body. There is no sort of question of the truth of the statement and value of the food, as can be demonstrated by anyone.

there. "We have just adjusted the trouble there with the Illinois Central railroad," he added, "and a uniform rate of 25 cents an hour will be made throughout the system for machinists and an increase of 5 per cent in wages of all other shop employees."

P. J. Colon, of Sioux City, member of the board, says the Union Iron works and the Fulton Iron works in San Francisco doubtless will resist the demand.

As a result of the meeting of the general officers the following address to the craft was drafted and made public tonight:

"In the majority of efforts—both skilled and the so-called unskilled—the effort for shorter hours has been uniformly successful, and they have, for a number of years, enjoyed the pleasures that come with greater leisure. Machinists, owing to the fact of their isolation in the past in the labor movements, have not enjoyed this right and privilege until now, after a decade of education, they have concluded that the time has arrived when they, too, should share in the same enjoyments. In reaching this conclusion, and in seeking similar favors, they know they are not stretching their demands beyond the bounds of reason, or seeking something to which they have no valid claim."

"More than a quarter of a century ago our brother craftsmen in Great Britain secured the nine-hour day. It is conceded by all manufacturing machinists who have given the question the least study, that the American machinists produce more per diem, even on an eight-hour day basis, than does his brother in that country. Such being the case, it is eminently proper and strictly in accordance with the spirit of the times, that the machinists of the United States, Canada and Mexico should make a concerted movement in the same direction. The time has come, the moment is ripe, and the demand is now made."

"To the uninitiated a few words explanatory of the position the machinists occupy in the domain of productive labor, and in connection with a shorter work day, may not be out of place:

"Owing to the peculiar nature of our trade and the great inroads made into it by the introduction of more perfect machinery, a great deal more is now produced than ever. This increased production continues to increase with the succeeding years, but in spite of this no material or permanent increase in wages has been secured by the man who manipulates the machine. He produces more, but receives no more than he did formerly. Now the demand is made for a fairer share of what we produce, by showing the work day by one hour without any decrease in pay."

"This demand is not made without due warning. Twelve months ago notice was served on the manufacturers of the United States that on Monday, May 20, 1901, the International Association of Machinists would demand a nine-hour day, and that if the demand was not granted, its members would suspend labor until the demand was granted. We do not advocate a strike, with all the attendant mistakes of the past, but merely a peaceful cessation of labor until we can start work on a nine-hour day basis."

"We appeal to our fellow craftsmen to rally with us in this effort to elevate our manhood; to improve our minds; to purify our bodies and our lives; to make of us exemplary citizens; to make our homes more homelike with our presence, and to show the world that we, too, have aspirations a 'little' higher than the brutes and scarcely lower than the angels."

RETURN OF VOLUNTEERS.

Three Regiments Will Sail Tomorrow for San Francisco.

Washington, May 18.—Quartermaster General Ludington has received a cable message from Col. Miller, depot quartermaster at Manila, giving additional details regarding the return home of the volunteers. He says that the transports Hancock, Buford and Aztec will leave Manila for San Francisco tomorrow and that the transport Pennsylvania will leave on the 22nd inst. The Aztec is an animal ship. The others are transport ships. They will bring the Thirty-first, Fortieth and Forty-first regiments of volunteer infantry.

In addition, they also have received by the department of the transports Sumner and Indiana from Nagasaki for Tokyo to transport Gen. Chaffee's army to Manila.

WANTS ONE OF THE AZORES.

United States After One for a Coaling Station.

London, May 18.—"The United States government is trying to persuade Portugal," says the Lisbon correspondent of the Daily News, "to cede an island in the Azores for a coaling station."

Major Edward Everts Dead.

Alameda, Cal., May 18.—Major Edward Everts, U. S. A. (retired), is dead at his residence in this city. He was a cousin of the late Senator William Everts, and was well known in army circles on this coast and in other states.

Decline of British Agriculture.

New York, May 18.—The London correspondent of the Tribune says the agricultural returns of Great Britain for 1900, which have just been issued, show that the decline of British agriculture pursues its steady course. The area under corn crops in Great Britain, which in 1870 occupied 9,548,000 acres, has fallen to 7,335,000 acres.

The area under clover crops has fallen almost as heavily, while only the acreage laid down in grass and clover shows an increase. In horses, cattle, sheep and pigs there is a slight advance in this period, but not such as to keep pace with the increase in population, or to compensate for the diminished corn production. England, which used to grow her own corn and was able to feed herself, is becoming every year more and more dependent upon imports from foreign countries.

BIG POWDER DEAL.

Scheme to Consolidate the California Powder Companies.

San Francisco, Cal., May 18.—The Chronicle says:

"Signs are apparent of a great local powder deal being on its way. It probably has an eastern end, but the term local is used to include the companies doing business from this city. Their territory is an extensive one. It covers the entire western part of the United States and Colorado, and the Pacific coast from British Columbia and Alaska on the north to Mexico and Central America on the south. Business in this wide field is conducted by the California Powder works, the Giant Powder company, the California Vigorite and the Judson Powder company under an agreement with the manufacturers of high explosives on the Atlantic seaboard for division of the continent. In addition there is an arrangement between the Pacific coast companies by which they make monthly reports to one another in order to control the production and maintain prices on an agreed schedule."

The project now undertaken is to do away with this species of pool by bringing all four local companies under one management and incorporation. The plan of the scheme is to reorganize the present shareholders are to receive \$2,000,000 in stock and the reorganized company, which will probably be formed under a modified name, and the remaining \$3,000,000 is to be treasury stock. It is argued that this would be the best way to handle the business. The companies at the par value of their capital should figure."

TELEPHONE TALK
LAST NIGHT.City Council Has Franchise Matter
Before It for a Time.

QUESTION DELAYED A WEEK

Maximum Rates of the New Companies—Declaration That the Old Co. Is Operating Without Franchise.

Councilman Fernstrom sprung a surprise at the meeting of the council committee on laws last night when the matter of granting a franchise to one or other of the projected telephone companies, the Salt Lake Mutual or the Utah Home, was up for consideration. The councilman from the Third made the statement, and stuck to it that the Bell Telephone company did not have a franchise in Salt Lake City. There was a good deal of incredulity regarding Mr. Fernstrom's statement, but that gentleman insisted that at the time the Bell company applied for a franchise the city demanded that the company run a hundred miles of its wires in underground conduits. The company demurred and although no agreement was ever come to the company went ahead and put in its telephone system, minus the underground wires. City Attorney Stephens was requested to look the matter up, and the proposition of granting franchises was passed for a week.

The maximum rates proposed by the new companies are \$2 for the Mutual and \$4 for the Home, but the latter proposes to pay the city 5 per cent of its gross receipts while the former offers only 3. The maximum of the Bell is \$30. The rate for residences proposed by the Home company is \$20. The Mutual proposes a rental of \$36 in the business district with \$6 added for each half mile outside of the one mile radius.

The maximum rates proposed by the new companies are \$2 for the Mutual and \$4 for the Home, but the latter proposes to pay the city 5 per cent of its gross receipts while the former offers only 3. The Mutual proposes a rental of \$36 in the business district with \$6 added for each half mile outside of the one mile radius.

ENTERTAIN THE GOVERNOR.

Ohio's Executive and Party Will Spend Day in Salt Lake.

Governor Nash, of Ohio, and his staff, together with a number of Ohio congressmen, will arrive in Salt Lake next Tuesday morning at 9 o'clock. The governor and his party have accepted the invitation of Governor Wells to spend a day in this city and a program has been prepared for their entertainment. They will leave the city, continuing on their journey at 7 o'clock in the evening, and the hours between 9 and 11 of the time of their arrival and departure will be filled up. The party will be met at the depot by Governor Wells and his staff, as well as other citizens, and will be driven over the city until 11 o'clock. At that hour a recital will be given in their honor at the Tabernacle, after which they will be driven to the Alta club and entertained at luncheon by Governor Wells.

The first thing in the afternoon a trip will be taken to Saltair in a special train tendered by President Snow, who will derive a two fold pleasure in extending this courtesy to the distinguished party, because he himself is an Ohioan.

The following is a list of the Ohio congressmen who are in Governor Nash's party, and the committees of which they are members:

Congressman Charles Dick, of Akron, O., military affairs, militia, the city and navy; Congressman-elect J. W. Cas-singham, of Coshocton, O.; Congressman-elect R. M. Nevin, of Dayton, O.; Congressman-elect Charles Q. Hildebrand, of Wilmington, O.; Congressman-elect Joseph G. Stork, of Paulding, O.; Congressman-elect J. W. Cassingham, of Coshocton, O.; Congressman-elect W. B. Warnock, of Urbana, O.

SELGRATH KILLS HIMSELF.

Engineer of Mammoth Mill Takes Morphine in Fit of Despondency.

The remains of Frank Selgrath, who committed suicide at Mammoth yesterday afternoon, were brought to Salt Lake this morning for interment. Selgrath was engineer of the Mammoth mill and was a most competent man when sober. It is reported that he had been very heavily for the past few days, when in a period of despondency he went to Silver City, bought sixty grains of morphine and took them. He was found and taken to the Mammoth hospital, where heroic efforts were made to revive him, but the deadly drug had obtained a death grip upon him, and nothing could release it. Selgrath was formerly traveling engineer on the Rio Grande Western, and was one of the most popular men in the service of the road.

VARIOUS COURT CASES.

Margaret C. Dummer has commenced divorce proceedings against William Dummer on the ground of cruelty. She says that her husband accused her of taking the life of her infant child on October 11, 1892, and on April 1, 1900, he had changed her in the police court, with battery. Incidentally she alleges that he has never provided for her. She asks the custody of her three minor children.

Suit was filed in the district court yesterday by Robert A. Ure, receiver of the property of Gus Lindgren, against S. J. and Lewis Lewison to set aside a deed to some land in Sandy valued at \$20. Plaintiff claims that the land belongs to the Lindgren estate.

GEORGE SMITH INJURED.

Lad is Thrown From a Runaway Horse on to the Pavement.

George Smith, a 15-year-old son of William Smith, the teamster, living at Eighth East and First South street, sustained injuries last evening that may result seriously. For the last few weeks George and his father have been rooming with W. S. Deal on the corner of State and Third South streets.

ONLY TWELVE DAYS REMAIN

In which to take advantage of Drs. Shores' Grand Test Treatment Offer of "FREE TREATMENT UNTIL CURED" to all who apply before June 1st, to demonstrate there is a "Permanent Cure" for Chronic Diseases.

YOU ONLY PAY FOR THE MEDICINES ACTUALLY USED.

Under this special offer you only pay for the medicines actually used in your own case. The Doctors give their treatment free and their professional services free until the patient is cured PERMANENTLY to all who apply for treatment before June 1st.

Drs. Shores know there are thousands of sick people in Salt Lake City and vicinity, with Chronic Ailments, who have about made up their minds that "CHRONIC DISEASES CANNOT BE CURED PERMANENTLY," because they have tried this doctor and that, and taken bottle after bottle of Patent Medicines at a cost of hundreds of dollars, with BUT TEMPORARY RELIEF AT THE MOST, and IT IS TO OVERCOME THIS SKEPTICISM THAT DR. SHORES WILL TAKE ANY "CUTABLE" CASE OF CHRONIC DISEASE THAT APPLIES BEFORE JUNE FIRST, AND TREAT THEM ENTIRELY FREE UNTIL CURED "PERMANENTLY."

NOW UNDERSTAND THE OFFER.

ANY PERSON WITH CATARRH OR ANY DEEP SEATED NERVOUS OR CHRONIC DISEASE that afflicts Drs. Shores and Shores before June 1st will be treated absolutely free until a permanent cure is effected to demonstrate that chronic diseases can be cured "permanently." The only expense to the patient in any case until cured will be for the cost of the medicines actually used (at Wholesale Price).

The Doctors give their professional services free and their treatment free to all who apply before June 1st until they are cured PERMANENTLY. Don't miss this opportunity to get cured of your ailment practically free.

Drs. Shores & Shores are expert and EXPERIENCED PHYSICIANS AND SPECIALISTS, having in the past eight years in their various offices treated over 100,000 cases of Chronic Disease.

Drs. Shores are thoroughly educated Physicians, being graduates of American leading Medical Colleges. It is because of these qualifications and because of Drs. Shores' GREAT PERSONAL EXPERIENCE that they are enabled to make the most generous offer to the sick and afflicted with ANY CHRONIC DISEASE, for THEY KNOW THEY CAN CURE ALL CURABLE CASES.

COME TODAY, COME MONDAY, COME ANY DAY BEFORE JUNE FIRST, and take advantage of this grand special offer and be cured PERMANENTLY. Consultation free for any disease. Come and bring your friends.

HERE'S A CASE IN POINT.

SHOWING THE TERRIBLE EFFECTS OF CATARRH ON THE STOMACH—ALSO PROVING DR. SHORES' MASTERY OF THIS DREAD DISEASE.

FREDERICK W. BELL.
1513 West, North Temple St., Salt Lake City.

Mr. Bell, whose picture is given herewith, says: "I have been a victim of Catarrh of the Stomach, and Head for a long time. To start with my head and nose stopped up, causing me to hawk and spit continually. Then it began to affect my lungs, so that if I ran a short distance I was almost exhausted, and could scarcely get my breath. Finally it reached my stomach, and trouble began in earnest, my food soured on my stomach, I had severe pains after eating, and at night I could scarcely lie down in bed for fear of choking to death. I got so bad I went to see Drs. Shores. After a consultation began their treatment. To make it brief I will say I have been under their care just a month, and they have simply done wonders. My stomach is good and sound, no pains of distress, and I feel like I could run a quarter of a mile now without trouble—in fact I can work much better, with less fatigue, and can once more enjoy life. I cannot praise Drs. Shores treatment too highly, it is simply a blessing to humanity. I have not had a headache since starting their treatment—where I used to have them daily."

Then it began to affect my lungs, so that if I ran a short distance I was almost exhausted, and could scarcely get my breath. Finally it reached my stomach, and trouble began in earnest, my food soured on my stomach, I had severe pains after eating, and at night I could scarcely lie down in bed for fear of choking to death. I got so bad I went to see Drs. Shores. After a consultation began their treatment. To make it brief I will say I have been under their care just a month, and they have simply done wonders. My stomach is good and sound, no pains of distress, and I feel like I could run a quarter of a mile now without trouble—in fact I can work much better, with less fatigue, and can once more enjoy life. I cannot praise Drs. Shores treatment too highly, it is simply a blessing to humanity. I have not had a headache since starting their treatment—where I used to have them daily."

FREDERICK W. BELL.
1513 West, North Temple St., Salt Lake City.

Dr. Bell, whose picture is given herewith, says: "I have been a victim of Catarrh of the St
